

Excellent. Your **Step 1 is complete.**

I reviewed your Website Strategy. It gives us enough information to design a website that speaks to your target customers and guides them toward contacting you or requesting a personalized marketing strategy. The strategy clearly defines the product, target audience, customer pain points, solution, benefits, and primary call-to-action.

## Step 2 - Website Structure (Sitemap)

### Goal

In this step, we decide **what pages and sections** the website should have.

Think of it as the architectural drawing before building the house.

## What I Need From You for Step 3

Nothing.

Just review the sitemap. If you're happy with it, reply with:

## Next

In **Step 3**, we'll create the complete website content section by section (headlines, text, CTAs, FAQs, and trust-building copy). This content will be ready to place directly into the HTML pages without needing additional writing.
